OLD DOMINION SPORT.

ST. ASAPH, VA., November 16.—Five favorties and a second choice took the first money at the St. Asuph track to-day. Two track records were made, and a dead heat marked the six-furiong event. The betting was brisk, and the number of books was swelled to twenty-three.

The second race proved an exciting event, as Little Hilly and Old Dominion were so close at the wire that the judges would not separate them, and called it a dead heat. In the run-off Old Dominion led all the way, but only succeeded in defeating Little Billy, who pulled up lame, by a head.

ran up behind them to within ten feet and emptied the contents of one revolver at them both. He then deliberately drew forth the other weapon and fired again at Mrs. Whitford. After firing the last shot he remarked: "I gains I ve fixed both of you," and, sitting dawn on a horse-block, empthed the other four chambers into his body near the heart.

Meanwhile a crowd gathered in the vicinity of the tragedy, but no one dared to go near him. Straight realized that they were afraid of him, and shouted that he would not hurt any one, as he had killed these be was after. Neighbors then removed all parties to the house. Mrs. Straight was shot three times in the back, the balls lodging in the abdominal cavity and the base of the lungs. She died at I o'clock this evening. Mrs. Whitford was shot twice, one ball phercing the arm and lodging in the posterior side of the thorax, the other shattering the spinal column near its base. She is still allive, but slaking rapidly.

The murderer was removed to the Arnott-Ogden Hospital and retained consciousness for several hours. He graphically described the murder to the District Attorney. He is now unconscious, and death is but a question of a few hours. The parties are well-known, respectable citizens of Elinira, and the tragedy has created great excitement.

LULA, MISS., November 16.—Jacob W. Harman, Mayor of this town, and Henry ton plantation, and his younger brother, Both.

A year ago Mayor Harman and the elder Royd had a dispute and several shots were fired, since which time bad blood has existed between them. Yesterday afternoon Mayor Harman met John W. Boyd on the street, drew his pistol and beat him over the head with it. Today the Royd brothers came into town armed with rifles. At noon as Harman and Lawrence walked up the street to dinner the Boyd brothers confronted them and opened fire. Harman drew his revolver and fired a couple of shots ineffectually. Both he and Lawrence were killed on the spot. The elder Boyd escaped on horsebuck, the younger on foot. They sent word that they would surrender to the sheriff, but no one cise.

The two men killed were 25 years old. The elder Boyd is 25 and the younger 18.

APOPLEXY OR SUICIDE?

Lawyer Allen, Imprisoned for Embezzlement, Dies in His Cell. PHILADELPHIA, November 16.-Law yer Walter D. Allen, who on Wednesday pleaded before Judge Bregy guilty to

mbezzlement, died at noon to-day at embezziement, died at noon to-day at Moyamensing prison.

After his plea of guilty Judge Bregy deferred sentence, but ordered Allen into custody, and he was taken to prison. He was to have been sentenced to-day. When the julier opened the cell door this morning, he found Allen lying on the bed in a comatose condition. A physician was called, but the unfortunate man died a few hours later. The immediate cause of death was apoplexy, but the Coroner has ordered a post-mortem examination to be made because of a report that the lawyer committed suicide by poisoning. He was 44 years old, and for many years was an honorable attorney.

On Wednesday Lawyer Allen pleaded guilty to three bills of indictment, charging him with the embezziement of \$23,000 from his clients. He had acted as agent for the prosecutors, and lost the money in speculation. It was stated that he had made restitution, and a plea for mercy was made, after which he was sent to prison to await the decision of the Court.

CINCINNATI. O., November 16.—(Special)—When Superintendent Henly heard that Morganfield, the train-robber, had cut up high jinks at the city bospital he at once proceeded to dany it.

Officer Schmedes, who was present at the assault, was summoned before Chief Deltsch and stated that Morganfield bell curried on in a frightful manner Tuesday.

"Did he get out of bed?" asked the Chief.

"Yea, sir; he got up and tried to put his broken leg on the floor. It is in a cast of plaster of Paris. When he did that I made him go back to bed."

"Did he want the invalid-chair?"

"Did he want the invalid-chair?"

"He almost begged for it," was the reply. "He made all kinds of threats, and his language was terrible. He called the doctors some awful names, and declared that as long as he was in the hospital he proposed to be treated right."

"What caused those acts?"

"Why, he said they shut off his supply of morphine. I told this to Dr. Reynolds, and I believe he then allowed him a little of the drug again."

NEW YORK, November 16,-R. G. Money continues to accumulate, none going West, while the outgo to the South has diminished. Bankers are much encouraged by indications of larger business, but there is no increase as yet in commercial borrowing, and one dry-goods loan has been taken at 2½ per cent. The merchandise imports in two weeks of November have been 13 per cent. Larger than last year, though 30 per cent. least them in 1852, and exports for the same time show a decrease of about 8 per cent. The exports of breafstuffs, coal, provissions, and oil in October were \$7.066.397, against \$58.328.825 last year, although a million baies of cotion went abroad, and the value of the same quantities exported this year would have exceeded \$70.660.000 and the value of the same quantities exported this year would have exceeded \$70.660.000 and the value of the same quantities exported this year would have exceeded \$70.660.000 and the value of the same quantities exported this year would have exceeded \$70.660.000 and the value of the same quantities exported this year would have exceeded \$70.660.000 and \$2,800.000 in cotton and \$2,800.000 in process alone being \$10.600.000 in cotton and \$2,800.000 in manual states and the cotton industry than in others, but no increased demand for goods appears. Print-cloths are unchanged, and the market is dull.

For finished products of iron the demand is, on the whole, narrower, so that structural beams are lower, the barbed-wire commission has broken, the strife in nails continues at the lewest prices here, and both gray-forge and Bessemer are a shade lower at Pittsburs. At the West there is a little more improvement.

Fallures in the first week of November were rather larger than of late, the liabilities announting to \$2.84445, or which \$72.240 were of manufacturing, and \$2.683.977 of trading concerns. In five weeks ending November ist the Habilities in failures were \$11.27.20, of which \$1.44.833 against \$22 last year.

CLEVELAND, O., November 15.—The first session of the Women's Christian Temperance Union Convention opened in Music Hall this morning, with the largest attendance in the history of the union. The session was devoted to the annual address of President Frances Willard and the reports of the committees. After Miss Willard had concluded her address the report of the corresponding secretary was read. A melancholy interest attached to it because of the fact that the woman who had conducted the work for many years, Mrs. Mary A. Woodbridge, died less than four weeks ago. The report was read by Mrs. L. M. N. Stevens.

The report of Mrs. Helen M. Baker, the treasurer, showed that the receipts this year were in excess of those of several previous years, and the dues disclosed an increase in paid membership over last year. The receipts of the year were \$25,019; disbursements, \$20,355; balance, \$5,681, with no outstanding bills.

End of the Car-Shed Wreck.

WELDON, N. C., November 16.—(Special.)—A north-bound freight train, on one of the cars of which was a heavy iron steam shovel, wrecked the southern end of the long car-shed here last night. The train was pulling out at a good rate of speed, when the shovel came in contact with the heavy upper timbers of the shed. Two heavy cross-pieces were splintered, and the end board torn off. The accident was unavoidable.

The fast train south-bound had to hold up long enough to have the smoke-stack taken off before it could pass under the wrecked end of the shed. Another engine attempted to pass the wrecked timbers, and had its steam-whistle torn off. The trains and engines were all of the Coast-Line system. End of the Car-Shed Wreck,

UNCLE SAM'S MEDIATION. WASHINGTON, D. C., November 16.—
The State Department has received official information that a special meeting of the Japanese Ministry has been called for to-merrow to consider a final answer to the offer of the United States to mediate between China and Japan. The delay thus far is explained by the fact that the Cabinet meets at Tokio, while the Emperor, who has to be consulted, is at Hiroshima. Strong intimations have reached the officials here that the Cabinet will ask that China either make her offer direct to Japan or else free it from all doubt by specifying the exact amount of indemnity she will pay.

WAS UNINCENTIONAL.

Teaches Made Plain,

"It was a doctor's mistake!"

These words recently appeared in the newspaper accounts of the death of a brilliant American statesman, who passed away in the prime of life.

His maiady, with its complicated symptoms, had long puzzled the physicians who attended him, and it was not until after his death that the true cause was discovered. The doctors had suspected catarrh of the stomach, liver complaint, bladder trouble; they had surmised about all other allments, but they never once guessed that it was Bright's disease, which was slowly, but surely blotting out the life of their patient.

Mistakes have been the secret of many an untimely end in this mysterious and treacherous disease. Among the vast number of medical remedies how very few are ever effective in relieving disorders of the liver and kidneys? A mistake in the use of these remedies is often liable to cause death, and doctors, even the best of them, are frequently in danger of making a fatal error.

But there are some things in medical science about which there can be no mistake, and which can be used in the most critical cases without fear of fatal consequences. That is why so many broad-minded physicians throughout the world have united in proclaiming the merits of at least one American medical discovery, because they know from experience that it is safe and certain. Here, for example, are a few representative opinions which show how thoroughly advanced medical men agree on this important subject.

The late Dr. Holland, who was an educated physician, some years before he died wrote in Scribner's Monthly: "It is a fact that many of the best proprietary medicines of the day are more successful than many physicians, and most of them,"

Dr. William Edward Robeson, of the Royal navy, of England, wrote to a London newspaper called the Family Doctor, as follows: "Having had more than seventeen years' experience in my profession, I can conscientiously and emphatically state that I have been able to give more relief and effect more cures by the use of Warner

best possible action on the kinneys and urinary organs."

Dr. Andrew Wilson, F. R. S., editor of Health, in replying through his paper to a correspondent who had written to him restarding Warner's Safe Cure, sald: "Warner's Safe Cure in perfectly safe and perfectly reliable."

These are physicians so skilled, so independent, so honeat, so true to the conscientious teachings of their noble profession that they dare tell the trath to kings or queens, or the whole world. All honor to them.
